WELCOME WORDS

Dear fellows:

In order to strengthen academic exchanges and professional resources sharing in the field of Chronic Disease Care management in Asian countries, the 5th Asian Conference of Medical and Care Facilities will be held in Shanghai from June 21 to June 22, 2019. This conference is hosted by Chinese Non-government Medical Institutions Association and Asian Association of Medical and Care Facilities, and co-hosted by the Shanghai Association of Social Medical Institution, the Japanese Association of Medical and Care Facilities, the Korean Association of Medical and Care Facilities, Chronic Disease Care Management Branch of Chinese Non-government Medical Institutions Association, Professional Committee on Dialysis for Kidney Diseases and Professional Committee on Pain Disease. The conference awards Class I credit on continuing medical education at national level.

Asian Association of Medical and Care Facilities is the authoritative organization for Asian Chronic Disease Care, set up in Tokyo, Japanese in 2011. The association has more than 2000 members in Japan and South Korea and the Chronic Disease Care Management Branch of Chinese Non-government Medical Institutions Association on behalf of China joins in 2014. The Asian Chronic Disease Care Conference has successfully held four conferences in Japan and South Korea. The Asian Chronic Disease Care Conference is a high-level platform for fellows in Asian chronic disease care management to study chronic disease care and long-term care and improve the quality of life and medical care for Asian patients who have chronic disease. After the discussion of Chinese Non-government Medical Institutions Association and Asian Association of Medical and Care Facilities, the 5th Asian Conference of Medical and Care Facilities will be held in Shanghai from June 21 to June 22 this year. At that time, hundreds of specialists from Japan and South Korea on chronic disease care management and chronic disease care worker from all over the country will get together to study the advanced technologies and practical experiences in terms of chronic disease care management and medical care.

This conference is the first national academic conference held by the Chronic Disease Care Management Branch of Chinese Non-government Medical Institutions Association and the first International academic conference. It has get strong support from the Shanghai Association of Social Medical Institution, Professional Committee on Dialysis for Kidney Diseases, Professional Committee on Pain Disease and the branch of Investment and financing!

This conference will invite leaders from National Health Commission of the People's Republic of China and Shanghai Municipal Health Commission to attend. And other 30 honored guests in the field of chronic disease care management, kidney disease's diagnosis and treatment and pain care management in China, Japan and South Korea will be invited to give us some presentations and speeches in terms of the innovation in related fields. Presentations and speeches on medical technology, payment system and business models will help us grasp the hot spots and trends of the industry's development.

This conference will also organize a road show for outstanding cases of Asian chronic disease. Related enterprises in chronic disease, pain and kidney disease and investment and financing company from China, Japan and South Korea will bring advanced and mature technology, method and idea in various fields and show the project and equipment. The Asian Chronic Disease Care Conference and the Chronic Disease Care Management Branch of Chinese Non-government Medical Institutions Association will award the certificate.

We sincerely welcome experts, medical workers from chronic disease care management, rehabilitation management, pain management and kidney disease diagnosis and treatment and leaders, specialists and entrepreneurs from elderly health services and health related field to attend. We welcome you to exchange your experience, share superior medical resources to enhance international cooperation and communication, improve the development of chronic disease care management and related field, promote level of service and benefit people.

We are expecting to meet together in Shanghai!
